Subject index

Acartia bifilosa
Eurytemora affinis, feeding interactions with *Nodularia* sp., Baltic Sea 1403
Acartia clausi
population genetics of drifting and resident plankton, *Calanus* spp., fjords, Norway 1237
Acartia hongi
new species, Yellow Sea, Korean coastal waters 321
Acartia hudsonica
escape behaviour of copepods, *Aurelia aurita*/*Cyanea* sp. 2307
Acartia italica
population size/vertical distribution, Lake Rogoznica, Šebenik, Croatia, Adriatic Sea 1441
Adriatic Sea
coastal environment, light absorption by filter-retained acquatic particles 659
Croatia, *Acartia italica*, population size/vertical distribution, Lake Rogoznica, Šebenik 1441
seasonal variability in phytoplankton, chlorophyll *a* vertical distribution 1735
Aegean Sea
Milos, plankton gross production and respiration, hydrothermal systems 887
Alboran Sea
Centropages typicus, growth rates and egg production, comparison of juvenile and adult copepods 1393
Algae
carbon transfer to zooplankton, Lake Okeechobee, Florida, USA 1801
composition and distribution of pelagic and sympagic algal assemblages, phytoplankton, autumnal freeze up, Laptev Sea, Siberia 843
Cryptomonas erosa carbon allocation, effect of UV radiation, competition with bacteria, Saskatchewan, Canada 1277
effect of photoinhibition on photosynthesis, model 865
Gonyostomum semen, advantages of diel vertical migration, Lake Valkea-Kotinen, Finland 1841
resource competition, community structure 1591
standing stock/primary production, grazing impact of microzooplankton/mesozooplankton, Gironde estuary, France 531
Utermöhl method of estimating algal numbers, *Gymnodinium breve*/*Gymnodinium mikimotoi* 2255
Alkaline phosphatase activities
phosphorus recycling, effect of anthropogenic disturbance, Imboassica Lagoon, Brazil 589
Amazon
Lago Batata, phytoplankton, diel variation and species strategies, flood-plain lake, Brazil 63
Ammonium
release, response to rapid increases in irradiation in nitrogen-sufficient diatoms/flagellates 2351
Antarctic
Southern Ocean, South Georgia, plankton distributions, measurement with optical plankton counter, comparison with Longhurst-Hardy Plankton Recorder 619
Vestfold Hills Oasis, Omega Bay/Taynaya Bay, phytoplankton species succession, effect of permanent sea ice cover and different nutrient regimes 287
Antioxidant enzyme activities
effect of UV-B radiation/oxygen, temperature, *Daphnia magna* survival 1167
Arctic
Northeast Water Polynya, carbon cycling in marine surface waters, fate of small sized phytoplankton 779
Aristichthys nobilis
long-term changes of copopoda community, Lake Donghu, China 1757
Asterionella formosa
changes in elemental composition during diatom spring bloom 169
Atlantic Ocean
Calanus finmarchicus, physiology and population structure, Lagrangian tracer release experiment, North Atlantic 205
North and South, heterotrophic bacterioplankton, bacterial growth and grazing, comparison 685
North Atlantic Oscillation, spring bloom phytoplankton composition in the English Channel 2367
Norwegian Sea, *Calanus finmarchicus*, role of turbulence in feeding and reproduction 399
Atlantic–Mediterranean interface
strait of Gibraltar, microplankton abundance/structure/chlorophyll *a*, hydrodynamic features 603
Aurelia aurita
biomass and size structure during spring and summer, relationship with *Mnemiopsis leidyi*, northwestern Black Sea 223
escape behaviour of *Acartia hudsonica* during interaction with scyphomedusae 2307
prey size and vulnerability of copepods to predation by scyphomedusae 2289
***Aurelia* sp.**
Mastigias sp., variegated mecocosms,

alternatives to planktonreisels, marine lakes, Palau, Micronesia 1673
Australia
buoyancy regulation, water bloom formation, model, Lake Yangebup, Western Australia 1127
New South Wales, Chaffey reservoir, *Ceratium hirundinella*, growth in a subtropical reservoir, vertical migration 1025

Bacteria
carbon allocation, effect of UV radiation, competition with *Cryptomonas erosa* 1277
carbon transfer to zooplankton, Lake Okeechobee, Florida, USA 1801
resource competition, community structure 1591
UV-B radiation impact on bacterial activity and abundance in coastal waters, Gullmar Fjord, Sweden 1501
zooplankton grazing in hypertrophic river system, Nakdong river, Korea 1559
Bacterioplankton
heterotrophic, bacterial growth and grazing, North and South Atlantic Ocean, comparison 685
microzooplankton herbivory and bacterivory during spring, summer and winter, Logy Bay, Newfoundland coastal waters 253
Baltic Sea
dynamics of major mesozooplankton species 2015
Eurytemora affinis/*Acartia bifilosa*, feeding interactions with *Nodularia* sp. 1403
Gulf of Finland, *Scrippsiella hangoei*, distribution and seasonal dynamics of cyst populations 2155
Scrippsiella hangoei, germination of nesting cysts, regulation, blooms, Finland 1311
transparent exopolymer particles, relationship with particle stickiness, diatom bloom decline 485
Barents Sea
performance of plankton nets, WP2/MOCNESS, comparison, zooplankton 1901
Bautzen reservior
Daphnia galeata midsummer population decline caused by adult not juvenile mortality, Saxony, Germany 151
Bay of Tunis
hydrological structure and nutrient dynamics, consequences for principal plankton groups 2039
Bighead carp
long-term changes of copopoda community, Lake Donghu, China 1757
Billabongs
zooplankton egg production and emergence, effect of water regime/fish predation 433
Biogeochemical cycles
zooplankton mortality, plankton population models 1085
Bioluminescent plankton
Protoperidineum depressum/*Meridia lucens*, 3D spatial point patterns, spatial plankton analysis technique, Gulf of Maine, Wilkinson Basin, USA 409
Biovolume
optical plankton counter in water with high detritus, measurement with optical plankton counter 137
relationship with chlorophyll *a* in a deep oligotrophic lake, phytoplankton, Lake Redó, Pyrenees, Spain 91
Black Sea
Aurelia aurita biomass and size structure during spring and summer, relationship with *Mnemiopsis leidyi* 223
Sagitta setosa, population structure, vertical distribution and diel migration 669
Blooms
Asterionella formosa, changes in elemental composition during diatom spring bloom 169
effect of phytoplankton biomass on pelagic production, spring and autumn blooms, Dogger Bank, North Sea 1663
flagellates, cell type transition in the life cycle of *phaeocystis globosa*, North Sea 2181
Microcystis aeruginosa, buoyancy regulation, water bloom formation, model, lake Yangebup, Western Australia 1127
North Atlantic Oscillation, spring bloom phytoplankton composition in the English Channel 2367
phytoplankton, longitudinal distribution in a microbial estuary, Urdaibai estuary, Spain 969
Pseudocalanus newmani, variability of reproductive success, diatom bloom, Funka Bay, Hokkaido, Japan 907
Scrippsiella hangoei, germination of nesting cysts, regulation, Baltic Sea, Finland 1311
transparent exopolymer particles, relationship with particle stickiness, diatom bloom decline, Baltic Sea 485
***Brachionus* spp.**
metazooplankton impact on microbial food web, shallow hypertrophic lake, Lake Søbygård, Denmark 1047
Brazil
Amazon, Lago Batata, phytoplankton, diel variation and species strategies, flood-plain lake 63
Imboassica Lagoon, phosphorus recycling, alkaline phosphatase activities, effect of anthropogenic disturbance 589
picoplankton, contrasting effects of substrate and grazer manipulations in oceanic coastal waters 77

Brevetoxins
vectorial transport of toxins from *Gymnodinium breve* through copepods to fish 47
British Columbia
Canada, Vancouver Island, euphausiids, consumption by fish, Pacific hake/Pacific herring 1649
Brown shrimp
UV-induced mortality of zoea 1 larvae, seasonal adaptation, dose–response model 2095
Buoyancy
cyanobacteria, heterogeneity in gas-vesicle volume and metabolic activity, *Microcystis aeruginosa* 1579

Calanoid copepods
Acartia italica, population size/vertical distribution, Lake Rogoznica, Šebenik Croatia, Adriatic Sea 1441
Calanus finmarchicus, physiology and population structure, Lagrangian tracer release experiment, North Atlantic 205
Centropages typicus, growth rates and egg production, comparison of juvenile and adult copepods, Alboran Sea 1393
effect of ultraviolet radiation on vertical distribution and mortality 2325
Eurytemora affinis/*Acartia bifilosa*, feeding interactions with *Nodularia* sp., Baltic Sea 1403
new species, *Stephos marsalensis*, Sicily, Italy 2007
new species of *Stephos* T. Scott, 1892 from coastal waters, Sicily, Italy 15
Pleuromamma scutullata/*Heterorhabdus tanneri*, vertical distribution, life cycle and body allometry, Oyashio region, western North Pacific 29
Yellow Sea, *Acartia hongi*, new species 321
Calanus finmarchicus
food web interactions in a pelagic ecosystem, mecocosm study, fjord, Norway 569
Lagrangian tracer release experiment, North Atlantic 205
role of turbulence in feeding and reproduction, Norwegian Sea, northeast Atlantic Ocean 399
Calanus helgolandicus
non-phytoplankton diets and reproduction, comparison with a dinoflagellate diet 2171
***Calanus* spp.**
population genetics of drifting and resident plankton, *Acartia clausi*, fjords, Norway 1237
Calcium
role in survival/moulting/growth/egg production, *Daphnia magna* 553
California
Monterey Bay, seasonal abundance and vertical distribution, El Niño, calycophoron siphonophores 1139
California Current
Central Pacific, summer in the Ensenada Front, distribution of phytoplankton, *Emiliania huxleyi*, USA 813
Calycophoron siphonophores
seasonal abundance and vertical distribution, El Niño, Monterey Bay, California 1139
Calycophoron siphonophores/*Chuniphyes multidentata*
Monterey Bay, California, seasonal abundance and vertical distribution 1139
Canada
British Columbia, Vancouver Island, euphausiids, consumption by fish, Pacific hake/Pacific herring 1649
Nova Scotia, Eel River estuary, transport of molluscan larvae through a shallow estuary, *Mya arenaria*/*Macoma bathica*/*Mytilus edulis* 1779
Nova Scotia, Gulf of St Lawrence, American, sampling design for larvae 1299
Canary Islands
perturbation of Canary Current, mesozooplankton biomass/ichthyoplankton abundance/taxonomic composition of fish larvae 1377
Carbon
allocation, *Cryptomonas erosa*, effect of UV radiation, Saskatchewan, Canada 1277
cycling in marine surface waters, fate of small sized phytoplankton, Northeast Water Polynya, Arctic 779
effect on diatom flux, Dona Paula Bay, India 2125
food web C:N:P stoichiometry, latitudinal variation in arctic and temperate lakes 1341
fixation β-carboxylase/Rubisco activities, phytoplankton, Kerguelen Islands, Southern Ocean 1185
Noctiluca scintillans, Seto Inland Sea, Japan 1203
resource competition in algae and bacteria, community structure 1591
transfer to zooplankton, algae/bacteria, Lake Okeechobee, Florida, USA 1801
flux, role of faecal material before/during El Niño, Humboldt current, Chile 499
β-carboxylase
phytoplankton carbon fixation, Kerguelen Islands, Southern Ocean 1185
Carotenoid pigments
grazing experiments, gut pigment analysis, fate of xanthophyll, *Eudiaptomus gracilis*/*Daphnia galeata* 305
Carp
Bighead carp/Silver carp, long-term changes

of copopoda community, Lake Donghu, China 1757
Catalan Sea
chaetognaths, distribution and trophic ecology in relation to inshore–offshore gradient, northwestern Mediterranean Sea 339
Centropages typicus
growth rates and egg production, comparison of juvenile and adult copepods, Alboran Sea 1393
Ceratium hirundinella
growth in a subtropical reservoir, vertical migration, Chaffey reservoir, New South Wales, Australia 1025
***Chaeborus* spp.**
effect of endosulfan on *Daphnia pulex*, predator-induced responses 1705
Chaetognaths
distribution and trophic ecology in relation to inshore–offshore gradient, Mediterranean Sea, Catalan Sea 339
Sagitta setosa, population structure, vertical distribution and diel migration, south-western Black Sea 669
Chaffey reservoir
Ceratium hirundinella, growth in a subtropical reservoir, vertical migration, New South Wales, Australia 1025
Chaoborus flavicans
cyclopoid copepod mating and predation, *Cyclops vicinus* 1977
Chesapeake Bay
Gyrodinium galatheanum, spatial and temporal patterns of distribution and mixotrophy, USA 2105
zooplankton, estuarine relationships between trophic gradients and community structure, Virginia, USA 121
Cheshire
Rostherne Mere, *Microcystis aeruginosa* elemental composition, high-Si and low-Si subpopulations, UK 2137
Chile
Humboldt current, organic carbon flux before/during El Niño, role of faecal material 499
Chilomonas
effect of autotrophic and heterotrophic foods on *Daphnia longispina* demography 1925
China
Lake Donghu, long-term changes of copepoda community, bighead carp/silver carp 1757
Chiridius armatus
feeding strategies of marine copepods, predator–prey dynamics, comparison with *Paraeuchaeta norvegica* 1513
Chlorophyll *a*
comparison of east and west standing stock, oceanic habitat, Transition Domain, North Pacific 1
grazing experiments, gut pigment analysis, *Eudiaptomus gracilis*/*Daphnia galeata* 305
mechanisms controlling phytoplankton structure dynamics, temporal and spatial variations, York River estuary, Virginia, USA 194
microplankton abundance/structure, hydrodynamic features, strait of Gibraltar, Atlantic–Mediterranean interface 603
planktonic primary production, photosynthesis versus light intensity, Wadden Sea, Germany 1253
relationship with biovolume in a deep oligotrophic lake, Lake Redó, Pyrenees, Spain 9
spatial and temporal distribution, phytoplankton structure, tropical waters, Singapore 1465
spatial distribution, population structure and spatial distribution, Yellow Sea 939
vertical distribution, seasonal variability in phytoplankton, Adriatic Sea 1735
Chuniphyes multidentata
seasonal abundance and vertical distribution, El Niño, Monterey Bay, California 1139
Ciliates
response to spring cohort of *Cyclops vicinus*, Lake Søbygård, Denmark 185
Cladocera
effect of body size and temperature on generation time 241
Cladocerans
Daphnia lumholtzi, dispersal mechanisms and range expansion, reservoirs, Kansas, USA 2205
dynamics of major mesozooplankton species, Baltic Sea 2015
Clupea harengus
consumption of euphausiids, Pacific hake, Vancouver Island, British Columbia, Canada 1649
Cnidaria
Craspedacusta sowerbii, chemical composition/biomass, Germany 1329
Copepods
Acartia hongi, new species, Yellow Sea, Korean coastal waters 321
Acartia italica, population size, vertical distribution, Lake Rogoznica, Šebenik, Croatia, Adriatic Sea
calanoid copepods, growth rates and egg production, comparison of juvenile and adult copepods, Alboran Sea 1393
Calanus finmarchicus, physiology and population structure, Lagrangian tracer release experiment, North Atlantic 205
Calanus helgolandicus, non-phytoplankton diets and reproduction, comparison with a dinoflagellate diet 2171
Cyclops vicinus, mating and predation, *Rutilus rutilus*/*Chaoborus flavicans* 1977

dynamics of major mesozooplankton species, Baltic Sea 2015
effect of body size and temperature on generation time 241
effect of ultraviolet radiation on vertical distribution and mortality 2325
escape behaviour of *Acartia hudsonica*, *Aurelia aurita*/*Cyanea* sp. 2307
Eurytemora affinis/*Acartia bifilosa*, feeding interactions with *Nodularia* sp., Baltic Sea 1403
feeding strategies, predator–prey dynamics, *Paraeuchaeta norvegica*/*Chiridius armatus*, comparison 1513
long-term changes of copepoda community, bighead carp/silver carp, Lake Donghu, China 1757
new species, *Stephos marsalensis*, Sicily, Italy 2007
new species of *Stephos* T. Scott, 1892 from coastal waters, Sicily, Italy 15
Oithona similis, hydrochemical/chemical cues for remote prey detection, preying on *Gymnodinium dominans* 1155
Pleuromamma scutullata/*Heterorhabdus tanneri*, vertical distribution, life cycle and body allometry, Oyashio region, western North Pacific 29
population genetics of drifting and resident plankton, Calanus spp./*Acartia clausi*, fjords, Norway 1237
prey size and vulnerability to predation by scyphomedusae, *Aurelia aurita*/*Cyanea* sp. 2289
Pseudocalanus newmani, variability of reproductive success, diatom bloom, Funka Bay, Hokkaido, Japan 907
selective feeding, modelling selective feeding/size selectivity, predator–prey populations 1871
vectorial transport of toxins from *Gymnodinium breve* through copepods to fish 47
vertical distribution within a spatially variable food source, foraging strategy model 999

Coscinodiscus wailesii
measurement of zooplankton abundance, optical plankton counter, comparison with conventional measures, model 473

Crangon crangon
UV-induced mortality of zoea 1 larvae, seasonal adaptation, dose–response model 2095

Craspedacusta sowerbii
chemical composition/biomass, Germany 1329

Croatia
Adriatic Sea, *Acartia italica*, population size/vertical distribution 1441

Cryptomonas
effect of autotrophic and heterotrophic foods on *Daphnia longispina* demography 1925
response to spring cohort of *Cyclops vicinus*, Lake Søbygård, Denmark 185

Cryptomonas erosa
carbon allocation, effect of UV radiation, competition with bacteria, Saskatchewan, Canada 1277

Cryptophyceae
biomass annual variations, pigments/microscopic counts, *Phaeocystis* sp./Dinophyceae, English Channel 1423

Cuenca
Lake la Cruz, diel vertical movements of zooplankton, Spain 1683

***Cyanea* sp.**
escape behaviour of *Acartia hudsonica* during interaction with scyphomedusae 2307
prey size and vulnerability of copepods to predation by scyphomedusae 2289

Cyanobacteria
buoyancy regulation, *Microcystis aeruginosa*, water bloom formation, model, lake Yangebup, Western Australia 1127
heterogeneity in buoyancy, gas-vesicle volume and metabolic activity, *Microcystis aeruginosa* 1579
response to iron, enclosure experiments, *Gloeotrichia echinulata*, Lake Erken, Sweden 1113

Cyclopoid copepods
Cyclops vicinus, impact of spring cohort on protozoa, *Cryptomonas*/ciliates, Lake Søbygård, Denmark 185
Cyclops vicinus, mating and predation, *Rutilus rutilus*/*Chaoborus flavicans* 1977
Oithona similis, hydrochemical/chemical cues for remote prey detection, preying on *Gymnodinium dominans* 1155

Cyclops vicinus
impact of spring cohort on protozoa, *Cryptomonas*/ciliates, Lake Søbygård, Denmark 185
mating and predation, *Rutilus rutilus*/*Chaoborus flavicans* 1977
metazooplankton impact on microbial food web, shallow hypertrophic lake, Lake Søbygård, Denmark 1047

Cysts
losses to cyst seed bank, predation/microbial degradation, model of dinoflagellate ecology 803
Scrippsiella hangoei, distribution and seasonal dynamics of cyst populations, Baltic Sea, Gulf of Finland 2155
Scrippsiella hangoei, germination of nesting cysts, regulation, Baltic Sea, Finland 1311

Czech Republic
Rimov Reservoir, community structure in a canyon-shaped dam reservoir 1829

Daphnia galeata
grazing experiments, gut pigment analysis, fate of chlorophyll *a*/xanthophyll 305
midsummer population decline caused by adult not juvenile mortality, Bautzen reservior, Saxony, Germany 151
Daphnia hyalina
density fluctuations in three interconnected lakes, *Daphnia cucullata*, predation by *Rutilus rutilus*, Great Mazurian Lakes, Poland 1539
Daphnia longispina
effect of autotrophic and heterotrophic foods on demography, *Cryptomonas*/*Chilomonas* 1925
Daphnia lumholtzi
dispersal mechanisms and range expansion, reservoirs, Kansas, USA 2205
Daphnia magna
calcium limitation, survival/moulting/growth/egg production 553
maternal size, relationship with size of hatchlings, sexual reproduction 279
metazooplankton dynamics, waste stabilization pond, Luxembourg 2263
survival, antioxidant enzyme activities, effect of UV-B radiation/oxygen/temperature 1167
Daphnia middendorffiana
effect of experimental scale on predation rate of *Gammarus lacustris*, alpine lake 1719
Daphnia pulex
effect of endosulfan on predator-induced responses, *Chaeborus* spp. 1705
***Daphnia* sp.**
coping with fish predation 1411
metazooplankton impact on microbial food web, shallow hypertrophic lake, Lake Søbygård, Denmark 1047
Denmark
Lake Søbygård, ciliates/*Cryptomonas*, response to spring cohort of *Cyclops vicinus* 185
Lake Søbygård, metazooplankton, impact on microbial food web, shallow hypertrophic lake 1047
Detritus
optical plankton counter abundance/biovolume in water with high detritus, measurement with optical plankton counter 137
Diatoms
Asterionella formosa, changes in elemental composition during spring bloom 169
bloom decline, transparent exopolymer particles, relationship with particle stickiness 485
Coscinodiscus wailesii, measurement of zooplankton abundance, optical plankton counter, comparison with conventional measures, model 473
effect of sedimentation and carbon on diatom flux, Dona Paula Bay, India 2125
nitrogen-sufficient, ammonium release in response to rapid increases in irradiation 235
North Atlantic Oscillation, spring bloom phytoplankton composition in the English Channel 2367
relationship between diatom assemblages and different water types, North Pacific Frontal Zone, Hokkaido, Japan 2061
saline-lake, impact of salinity, brine type and nitrogen on growth rates 1071
Diel variation
phytoplankton, flood-plain lake, Lago Batata, Amazon, Brazil 63
Dinoflagellates
germination of *Scrippsiella hangoei* nesting cysts, regulation, blooms, Baltic Sea, Finland 1311
Gymnodinium breve, vectorial transport of toxins through copepods to fish 47
Gymnodinium breve/*Gymnodinium mikimotoi*, Utermöhl method of estimating algal numbers 2255
Gymnodinium catenatum, selenium requirement, intraspecific variation, Tasmanian, Japanese and Spanish strains 421
Gymnodinium dominans, *Oithona similis* remote prey detection, hydrochemical/chemical cues 1155
Gyrodinium galatheanum, spatial and temporal patterns of distribution and mixotrophy, Chesapeake Bay, USA 2105
losses to cyst seed bank, predation/microbial degradation, model of dinoflagellate ecology 803
Scrippsiella hangoei, distribution and seasonal dynamics of cyst populations, Gulf of Finland, Baltic Sea 2155
Dinophyceae
biomass annual variations, pigments/microscopic counts, *Phaeocystis* sp./Cryptophyceae, English Channel 1423
Dogger Bank
effect of phytoplankton biomass on pelagic production, spring and autumn blooms, North Sea 1663
Dolioletta gegenbauri
feeding and growth rates of gonozooids, doliolid contribution to planktonic community, Savannah, Georgia, USA 1485
Doliolids
Dolioletta gegenbauri, doliolid contribution to planktonic community, Savannah, Georgia, USA 1485
Dona Paula Bay
effect of diatom sedimentation and carbon on diatom flux, India 2125

Eel River estuary
transport of molluscan larvae through a

shallow estuary, *Mya arenaria*/*Macoma bathica*/*Mytilus edulis*, Nova Scotia, Canada 1779
Egg production
calcium limitation, *Daphnia magna* 553
Centropages typicus, growth rates, comparison of juvenile and adult copepods 1393
Pseudocalanus newmani, variability of reproductive success, diatom bloom, Funka Bay, Hokkaido, Japan 907
zooplankton, effect of water regime/fish predation, experimental billabongs 433
El Niño
calycophoron siphonophores, seasonal abundance and vertical distribution, Monterey Bay, California 1139
organic carbon flux, role of faecal material, Humboldt current, Chile 499
Sardinops caeruleus/*Engraulis mordax*, spatial distribution of small pelagic fish larvae 1611
Elizabeth River
zooplankton, estuarine relationships between trophic gradients and community structure, Virginia, USA 121
Emiliania huxleyi
Central Pacific flora, summer in the Ensenada Front, distribution of phytoplankton, California Current, USA 813
Endosulfan
effect on predator-induced responses in *Daphnia pulex*, *Chaeborus* spp. 1705
English Channel
North Atlantic Oscillation, spring bloom phytoplankton composition 2367
phytoplankton biomass annual variations, pigments/microscopic counts, *Phaeocystis* sp./Dinophyceae/Cryptophyceae 1423
vertical migration of fish larvae, flounder/sole, Eulerian and Lagrangian observations, North Sea 1813
Engraulis mordax
spatial distribution of small pelagic fish larvae, *Sardinops caeruleus*, El Niño, Gulf of California, USA 1611
Ensenada Front
distribution of phytoplankton, *Emiliania huxleyi*, Central Pacific flora, California Current, USA 813
Epiphippial hatchlings
Daphnia magna, size, relationship with maternal size, sexual reproduction 279
Eubosmina coregoni gibbera
development of cyclomorphic traits, effect of chemical cues from *Leptodora kindtii* 1213
Eudiaptomus gracilis
grazing experiments, gut pigment analysis, fate of chlorophyll *a*/xanthophyll 305
Euphausia pacifica
population structure and spatial distribution, Yellow Sea 939
Euphausiids
consumption by fish, Pacific hake/Pacific herring, Vancouver Island, British Columbia, Canada 1649
Euphausia pacifica, population structure and spatial distribution, environmental factors and chlorophyll *a* concentration, Yellow Sea 939
Eurytemora affinis
Acartia bifilosa, feeding interactions with *Nodularia* sp., Baltic Sea 1403

Faecal material
role in organic carbon flux before/during El Niño, Humboldt current, Chile 499
Filament width
formula for asymptotic profile, oceanic plankton distribution 597
Finland
Baltic Sea, *Scrippsiella hangoei*, germination of nesting cysts, regulation, blooms 1311
Lake Valkea-Kotinen, dominance of *Gonyostomum semen*, advantages of diel vertical migration 1841
Fish
long-term changes of copepoda community, bighead carp/silver carp, Lake Donghu, China 1757
New Zealand, South Island, shallow lakes, trophic structure, nutrient levels/fish densities 951
Pacific hake/Pacific herring, consumption of euphausiids, Vancouver Island, British Columbia, Canada 1649
Sardinops caeruleus/*Engraulis mordax*, spatial distribution of small pelagic fish larvae 1611
sole, vertical migration of fish larvae in the English Channel, Eulerian and Lagrangian observations, North Sea 1813
taxonomic composition of larvae, mesozooplankton biomass/ichthyoplankton abundance, perturbation of Canary Current, Canary Islands 1377
vectorial transport of toxins from *Gymnodinium breve* through copepods to fish 47
zooplankton egg production and emergence, effect of water regime/fish predation 433
Fisheries
planktonic determination of variability and susceptibility 1419
Fjords
Acartia clausi/*Calanus* spp., population genetics of drifting and resident plankton, Norway 1237
Calanus finmarchicus, food web interactions in a pelagic ecosystem, mecocosm study, Norway 569

phytoplankton species succession, effect of permanent sea ice cover and different nutrient regimes, Omega Bay/Taynaya Bay, Vestfold Hills Oasis, Antarctica 287
Flagellates
ammonium release in response to rapid increases in irradiation 2351
cell type transition in the life cycle of *phaeocystis globosa*, spring bloom, North Sea 2181
germination of *Scrippsiella hangoei* nesting cysts, regulation, blooms, Baltic Sea, Finland 1311
Gymnodinium breve, vectorial transport of toxins through copepods to fish 47
Gymnodinium breve/*Gymnodinium mikimotoi*, Utermöhl method of estimating algal numbers 2255
Gymnodinium catenatum, selenium requirement, intraspecific variation, Tasmanian, Japanese and Spanish strains 421
Gymnodinium dominans, *Oithona similis* remote prey detection, hydrochemical/chemical cues 1155
Gyrodinium galatheanum, spatial and temporal patterns of distribution and mixotrophy, Chesapeake Bay, USA 2105
Gonyostomum semen, advantages of diel vertical migration, Lake Valkea-Kotinen, Finland 1841
Heterosigma akashiwo, production of extracellular hydrogen peroxide 1961
losses to cyst seed bank, predation/microbial degradation, model of dinoflagellate ecology 803
Phaeocystis globosa, growth and mortality, comparison with non-flagellate cells 107
Scrippsiella hangoei, distribution and seasonal dynamics of cyst populations, Gulf of Finland, Baltic Sea 2155
Florida
Lake Okeechobee, carbon transfer to zooplankton, algae/bacteria, USA 1801
Flounder
vertical migration of fish larvae in the English Channel, Eulerian and Lagrangian observations, North Sea 1813
France
Gironde estuary, microzooplankton/mesozooplankton, grazing impact on algae standing stock/primary production 531
Puy-de-Dôme, newly flooded Sep Reservoir, phytoplankton, effect of physico-chemical environmental factors on primary production 1355
Funka Bay
Pseudocalanus newmani, variability of reproductive success, diatom bloom, Hokkaido, Japan 907
Gammarus lacustris
predation rate on *Daphnia middendorffiana*, effect of experimental scale, alpine lake 1719
Georgia
USA, feeding and growth rates of gonozooids, doliolid contribution to planktonic community, Savannah, *Dolioletta gegenbauri* 1485
Germany
Craspedacusta sowerbii chemical composition/biomass 1329
Saxony, Bautzen reservior, *Daphnia galeata* midsummer population decline caused by adult not juvenile mortality 151
Wadden Sea, planktonic primary production, photosynthesis versus light intensity 1253
Gironde estuary
microzooplankton/mesozooplankton, grazing impact on algae standing stock/primary production, France 531
Gloeotrichia echinulata
response of cyanobacteria to iron, enclosure experiments, Lake Erken, Sweden 1113
Gonyostomum semen
advantages of diel vertical migration, Lake Valkea-Kotinen, Finland 1841
Great Mazurian Lakes
Daphnia cucullata/*Daphnia hyalina* density fluctuations in three interconnected lakes, predation by *Rutilus rutilus*, Poland 1539
Gulf of California
spatial distribution of small pelagic fish larvae, *Sardinops caeruleus*/*Engraulis mordax*, El Niño, Gulf of California, USA 1611
Gulf of Finland
Scrippsiella hangoei, distribution and seasonal dynamics of cyst populations, Baltic Sea 2155
Gulf of Maine
Wilkinson Basin, bioluminescent plankton, *Protoperidineum depressum*/*Meridia lucens*, 3D spatial point patterns, spatial plankton analysis technique, USA 409
Gulf of St Lawrence
American, sampling design for larvae, Nova Scotia, Canada 1299
Gulf of Tigullio
hydroclimatic factors and seasonal variation, Ligurian Sea, Mediterranean Sea 2225
Gullmar Fjord
UV-B radiation impact on bacterial activity and abundance in coastal waters, Sweden 1501
Gymnodinium breve
Utermöhl method of estimating algal numbers, *Gymnodinium mikimotoi* 2255
vectorial transport of toxins through copepods to fish 47
Gymnodinium catenatum
toxic dinoflagellate, selenium requirement,

intraspecific variation, Tasmanian, Japanese and Spanish strains 421
Gymnodinium dominans
Oithona similis remote prey detection, hydrochemical/chemical cues 1155
Gymnodinium mikimotoi
Utermöhl method of estimating algal numbers, *Gymnodinium breve* 2255
Gyrodinium galatheanum
spatial and temporal patterns of distribution and mixotrophy, Chesapeake Bay, USA 2105

Hamanus americanus
sampling design for larvae, Gulf of St Lawrence, Nova Scotia, Canada 1299
Heterorhabdus tanneri
vertical distribution, life cycle and body allometry, Oyashio region, western North Pacific 29
Heterosigma akashiwo
production of extra-cellular hydrogen peroxide 1961
Hokkaido
Funka Bay, *Pseudocalanus newmani*, variability of reproductive success, diatom bloom, Japan 907
North Pacific Frontal Zone, diatom assemblages and different water types, Japan 2061
Humboldt current
organic carbon flux before/during El Niño, role of faecal material, Chile 499
Hydrogen peroxide
production by *Heterosigma akashiwo* 1961
Hypophthalmichthys molitrix
long-term changes of copopoda community, Lake Donghu, China 1757

Ichthyoplankton
abundance, mesozooplankton biomass/taxonomic composition of fish larvae, perturbation of Canary Current, Canary Islands 1377
Imboassica Lagoon
phosphorus recycling, alkaline phosphatase activities, effect of anthropogenic disturbance, Brazil 589
India
Dona Paula Bay, effect of diatom sedimentation and carbon on diatom flux 2125
Indian Ocean
abundance, diversity and survival of tropical ballast water organisms, North Sea 923
Irish Sea
Nephrops norvegicus, temperature-dependent stage durations, temperatures at late spring and early summer 749
Iron
response of cyanobacteria, *Gloeotrichia echinulata*, enclosure experiments, Lake Erken, Sweden 1113
Italy
Sicily, new species of *Stephos* T. Scott, 1892 from coastal waters 15
Sicily, *Stephos marsalensis*, new species of calanoid copepods 2007

Japan
Hokkaido, Funka Bay, *Pseudocalanus newmani*, variability of reproductive success, diatom bloom 907
Hokkaido, North Pacific Frontal Zone, relationship between diatom assemblages and different water types 2061
Mikawa Bay, red tides, effects of diffusion and upwelling on formation 363
Seto Inland Sea, carbon/nitrogen content of *Noctiluca scintillans* 1203
Tokyo Bay, size and species-specific primary productivity, community structure of phytoplankton, seasonal variation 1221
Jellyfish
freshwater, chemical composition/biomass, Germany 1329
Mastigias sp./*Aurelia* sp., variegated mecocosms, alternatives to planktonreisels, marine lakes, Palau, Micronesia 1673

Kansas
Daphnia lumholtzi, dispersal mechanisms and range expansion, reservoirs, Kansas 2205
Kerguelen Islands
phytoplankton carbon fixation, β-carboxylase/Rubisco activities, Southern Ocean 1185
Korea
Nakdong river, zooplankton grazing on phytoplankton/bacteria in hypertrophic river system 1559
Yellow Sea, *Acartia hongi*, new species 321

Lago Batata
phytoplankton, diel variation and species strategies, flood-plain lake, Amazon, Brazil 63
Lake Donghu
long-term changes of copopoda community, bighead carp/silver carp, China 1757
Lake Erken
response to iron, enclosure experiments, *Gloeotrichia echinulata*, Sweden 1113
Lake la Cruz
diel vertical movements of zooplankton, Cuenca, Spain 1683
Lake Okeechobee
carbon transfer to zooplankton, algae/bacteria, Florida, USA 1801

Lake Rogoznica
Šebenik, *Acartia italica*, population size/vertical distribution, Croatia, Adriatic Sea 1441
Lake Søbygård
ciliates/*Cryptomonas*, response to spring cohort of *Cyclops vicinus*, Denmark 185
metazooplankton, impact on microbial food web, shallow hypertrophic lake, Denmark 1047
Lake Valkea-Kotinen
dominance of *Gonyostomum semen*, advantages of diel vertical migration, Finland 1841
Lake Yangebup
Microcystis aeruginosa, buoyancy regulation, water bloom formation, model, Western Australia 1127
Lakes
gravel pit lakes, ecological goal functions and lake plankton, central Spain 729
Mastigias sp. *Aurelia* sp., variegated mecocosms, alternatives to planktonreisels, marine lakes, Palau, Micronesia 1673
trophic structure, nutrient levels/fish densities, South Island, New Zealand 951
Laptev Sea
composition and distribution of pelagic and sympagic algal assemblages, phytoplankton, autumnal freeze up, Siberia 843
Las Tablas de Daimiel National Park
plankton biomass in a semi-arid freshwater wetland, effect of water inflow, Spain 2075
Lensia conoidea
seasonal abundance and vertical distribution, El Niño, Monterey Bay, California 1139
Leptodora kindtii
chemical cues, effect on development of cyclomorphic traits in *Eubosmina coregoni gibbera* 1213
Light absorption
filter-retained aquatic particles, coastal environment, Adriatic Sea 659
Ligurian Sea
Gulf of Tigullio, hydroclimatic factors and seasonal variation, Mediterranean Sea 2225
Lobster
Hamanus americanus, sampling design for larvae, Gulf of St Lawrence, Nova Scotia, Canada 1299
Logy Bay
microzooplankton, herbivory and bacterivory during spring, summer and winter, *Synechococcus*/bacterioplankton/phytoplankton, Newfoundland coastal waters 253
Longhurst-Hardy Plankton Recorder
plankton distributions, comparison with optical plankton counter, Southern Ocean, South Georgia, Antarctic 619
Luxembourg
metazooplankton dynamics, secondary production of *Daphnia magna*, waste stabilization pond 2263

Macoma bathica
transport of molluscan larvae through a shallow estuary, *Mya arenaria*/*Mytilus edulis*, Eel River estuary, Nova Scotia, Canada 1779
Macrozooplankton
dynamics in a coastal upwelling system, model 1619
Maine
Gulf of Maine, Wilkinson Basin, *Protoperidineum depressum*/*Meridia lucens*, 3D spatial point patterns, spatial plankton analysis technique 409
Wilkinson Basin, bioluminescent plankton, *Protoperidineum depressum*/*Meridia lucens*, 3D spatial point patterns, spatial plankton analysis technique, Gulf of Maine, USA 409
***Mastigias* sp.**
Aurelia sp., variegated mecocosms, alternatives to planktonreisels, marine lakes, Palau, Micronesia 1673
Mediterranean
hydrological structure and nutrient dynamics, consequences for principal plankton groups, Bay of Tunis 2039
Varano lagoon, picophytoplankton, contribution to community structure in brackish environment 381
Mediterranean Sea
Catalan Sea, chaetognaths, distribution and trophic ecology in relation to inshore–offshore gradient 339
Ligurian Sea, Gulf of Tigullio, hydroclimatic factors and seasonal variation 2225
Meridia lucens
bioluminescent plankton, 3D spatial point patterns, spatial plankton analysis technique, Gulf of Maine, Wilkinson Basin, USA 409
Merluccius productus
consumption of euphausiids, Pacific herring, Vancouver Island, British Columbia, Canada 1649
Mesozooplankton
biomass, ichthyoplankton abundance/taxonomic composition of fish larvae, perturbation of Canary Current, Canary Islands 1377
dynamics of major species, Baltic Sea 2015
grazing impact on algae standing stock/primary production, Gironde estuary, France 531
Metazooplankton
impact on microbial food web, shallow hypertrophic lake, Lake Søbygård, Denmark 1047
secondary production of *Daphnia magna*, waste stabilization pond, Luxembourg 2263

Microcystis aeruginosa
buoyancy regulation, water bloom formation, model, Lake Yangebup, Western Australia 1127
elemental composition, high-Si and low-Si subpopulations, Rostherne Mere, Cheshire, UK 2137
heterogeneity in cyanobacteria buoyancy, gas-vesicle volume and metabolic activity 1579
Micronesia
Palau, marine lakes, variegated mecocosms, alternatives to planktonreisels, *Mastigias* sp./*Aurelia* sp. 1673
Microplankton
abundance/structure/chlorophyll *a*, hydrodynamic features, strait of Gibraltar, Atlantic–Mediterranean interface 603
grazing impact of microzooplankton on algae standing stock/primary production, Gironde estuary, France 531
microzooplankton dynamics in a coastal upwelling system, model 1619
Mikawa Bay
red tides, effects of diffusion and upwelling on formation, Japan 363
Milos
plankton gross production and respiration, hydrothermal systems, Aegean Sea 887
Mithrax caribbaeus
effect of salinity and temperature on larval development, survival and duration of larval stages 1855
Mnemiopsis leidyi
relationship with *Aurelia aurita*, northwestern Black Sea 223
MOCNESS
performance of plankton nets in the Barents Sea, zooplankton, comparison with WP2 1901
Molluscs
transport of molluscan larvae through a shallow estuary, *Mya arenaria*/*Macoma bathica*/*Mytilus edulis*, Eel River estuary, Nova Scotia, Canada 1779
Monterey Bay
seasonal abundance and vertical distribution, El Niño, calycophoron siphonophores, California, USA 1139
Mya arenaria
transport of molluscan larvae through a shallow estuary, *Macoma bathica*/*Mytilus edulis*, Eel River estuary, Nova Scotia, Canada 1779
Mytilus edulis
transport of molluscan larvae through a shallow estuary, *Mya arenaria*/*Macoma bathica*, Eel River estuary, Nova Scotia, Canada 1779

Nakdong river
zooplankton grazing on phytoplankton/bacteria in hypertrophic river system, Korea 1559
Nephrops norvegicus
temperature-dependent stage durations, temperatures at late spring and early summer, Irish Sea 749
New South Wales
Chaffey reservoir, *Ceratium hirundinella*, growth in a subtropical reservoir, vertical migration, Australia 1025
New Zealand
South Island, shallow lakes, trophic structure, nutrient levels/fish densities 951
Newfoundland
Logy Bay, microzooplankton, herbivory and bacterivory during spring, summer and winter, *Synechococcus*/bacterioplankton/phytoplankton 253
Nitrogen
ammonium release in response to rapid increases in irradiation in nitrogen-sufficient diatoms/flagelllates 2351
food web C:N:P stoichiometry, latitudinal variation in arctic and temperate lakes 1341
impact on growth rates, saline-lake diatoms 1071
Noctiluca scintillans, Seto Inland Sea, Japan 1203
physiology model, growth of diatoms, silicon physiology model 447
Noctiluca scintillans
carbon/nitrogen content, Seto Inland Sea, Japan 1203
***Nodularia* sp.**
feeding interactions with *Eurytemora affinis*/*Acartia bifilosa*, Baltic Sea 1403

Oceanic plankton
formula for asymptotic profile of filament width, oceanic plankton distribution 597
Oithona similis
hydrochemical/chemical cues for remote prey detection, preying on *Gymnodinium dominans* 1155
Omega Bay
Vestfold Hills Oasis, Antarctica, phytoplankton species succession, effect of permanent sea ice cover and different nutrient regimes 287
Optical plankton counter
measurement of zooplankton abundance, *Coscinodiscus wailesii*, comparison with conventional measures, model 473
measurement of zooplankton abundance/biovolume in water with high detritus 137
plankton distributions, comparison with Longhurst-Hardy Plankton Recorder, Southern Ocean, South Georgia, Antarctic 619
Oxygen
effect on antioxidant enzyme activities, *Daphnia magna* survival 1167
Oyashio region
Pleuromamma scutullata/*Heterorhabdus tanneri*, vertical distribution, life cycle and body allometry, Oyashio region, western North Pacific 29

Pacific hake
consumption of euphausiids, Pacific herring, Vancouver Island, British Columbia, Canada 1649
Pacific herring
consumption of euphausiids, Pacific hake, Vancouver Island, British Columbia, Canada 1649
larvae, effect of ultraviolet radiation on vertical distribution and mortality 2325
Pacific Ocean
North Pacific Frontal Zone, relationship between diatom assemblages and different water types, Hokkaido, Japan 2061
Oyashio region, *Pleuromamma scutullata*/*Heterorhabdus tanneri*, vertical distribution, life cycle and body allometry, North Pacific 29
Transition Domain, comparison of east and west chlorophyll *a* standing stock, oceanic habitat, North Pacific 1
Palau
Micronesia, marine lakes, variegated mecocosms, alternatives to planktonreisels, *Mastigias* sp./*Aurelia* sp. 1673
Paraeuchaeta norvegica
feeding strategies of marine copepods, predator–prey dynamics, comparison with *Chiridius armatus* 1513
Phaeocystis globosa
flagellates in spring bloom colonies, North Sea 2181
growth and mortality, comparison with non-flagellate cells 107
vitamin B requirement 1529
***Phaeocystis* sp.**
biomass annual variations, pigments/microscopic counts, Dinophyceae/Cryptophyceae, English Channel 1423
Philocheras fasciatus
larval development in the laboratory, comparison with plankton larvae 1909
Phosphorus
food web C:N:P stoichiometry, latitudinal variation in arctic and temperate lakes 1341
recycling, effect of anthropogenic disturbance, Imboassica Lagoon, Brazil 589
resource competition in algae and bacteria, community structure 1591
Photoinhibition
effect on algal photosynthesis, model 865
Photosynthesis
effect of photoinhibition, algae, model 865
planktonic primary production, light intensity, Wadden Sea, Germany 1253
surface waters, measurement by radiocarbon method/non-isotopic dilution method, comparison, Red Sea 713
Phytoplankton
abundance, diversity and survival of tropical ballast water organisms, Indian Ocean, North Sea 923
biomass annual variations, pigments/microscopic counts, *Phaeocystis*

sp./Dinophyceae/Cryptophyceae, English Channel 1423
blooms, longitudinal distribution in a microbial estuary, Urdaibai estuary, Spain 969
carbon cycling in marine surface waters, fate of small sized phytoplankton, Northeast Water Polynya, Arctic 779
carbon fixation, β-carboxylase/Rubisco activities, Kerguelen Islands, Southern Ocean 1185
composition and distribution of pelagic and sympagic algal assemblages, autumnal freeze up, Laptev Sea, Siberia 843
diel variation and species strategies, flood-plain lake, Lago Batata, Amazon, Brazil 63
effect of physico-chemical environmental factors on primary production, newly flooded Sep Reservoir, Puy-de-Dôme, France 1355
effect of spring and autumn blooms on pelagic production 1663
fungal infection, rate of increase 987
mechanisms controlling structure dynamics, temporal and spatial variations, York River estuary, Virginia, USA 1945
microplankton
abundance/structure/chlorophyll *a*, hydrodynamic features, strait of Gibraltar, Atlantic–Mediterranean interface 603
microzooplankton herbivory and bacterivory during spring, summer and winter, Logy Bay, Newfoundland coastal waters 253
North Atlantic Oscillation, spring bloom composition in the English Channel 2367
planktonic primary production, photosynthesis versus light intensity, Wadden Sea, Germany 1253
relationship between biovolume/chlorophyll *a* in a deep oligotrophic lake, Lake Redó, Pyrenees, Spain 91
seasonal variability, vertical distribution, chlorophyll *a*, Adriatic Sea 1735
size and species-specific primary productivity, community structure, seasonal variation, Tokyo Bay, Japan 1221
species succession, effect of permanent sea ice cover and different nutrient regimes, Omega Bay/Taynaya Bay, Vestfold Hills Oasis, Antarctica 287
summer in the Ensenada Front, Central Pacific flora, *Emiliania huxleyi*, California Current, USA 813
use of pigments to indicate composition, biomass and physiological conditions, Weddell–Scotia confluence, South Orkney Island 1989
zooplankton grazing in hypertrophic river system, Nakdong river, Korea 1559

Picoplankton
contrasting effects of substrate and grazer manipulations in oceanic coastal waters, Brazil 77
picophytoplankton, contribution to community structure in brackish environment, Mediterranean, Varano lagoon 381

Pigments
phytoplankton biomass annual variations, microscopic counts, *Phaeocystis* sp./Dinophyceae/Cryptophyceae, English Channel 1423
use of pigments to indicate phytoplankton composition, biomass and physiological conditions, Weddell–Scotia confluence, South Orkney Island 1989

Planktonreisels
Mastigias sp./*Aurelia* sp., marine lakes, Palau, Micronesia 1673

Pleuromamma scutullata
vertical distribution, life cycle and body allometry, Oyashio region, western North Pacific 29

Pleuronectes flesus
vertical migration of fish larvae in the English Channel, Eulerian and Lagrangian observations, North Sea 1813

Poland
Great Mazurian Lakes, *Daphnia cucullata*/*Daphnia hyalina* density fluctuations in three interconnected lakes, predation by *Rutilus rutilus* 1539

Predator–prey dynamics
feeding strategies of marine copepods, *Paraeuchaeta norvegica*/*Chiridius armatus*, comparison 1513

Prey particles
orientation, re-orientation of non-spherical prey particles in feeding current, model 761

Protoperidineum depressum
bioluminescent plankton, 3D spatial point patterns, spatial plankton analysis technique, Gulf of Maine, Wilkinson Basin, USA 409

Protozoa
ciliates/*Cryptomonas*, response to spring cohort of *Cyclops vicinus*, Lake Søbygård, Denmark 185

Prymnesiophyceae
Phaeocystis globosa, growth and mortality, comparison with non-flagellate cells 107
Phaeocystis globosa, vitamin B requirement 1529

Pseudocalanus newmani
variability of reproductive success, diatom bloom, Funka Bay, Hokkaido, Japan 907

Puy-de-Dôme
newly flooded Sep Reservoir, phytoplankton, effect of physico-chemical environmental factors on primary production, France 1355

Pyrenees
Lake Redó, phytoplankton, relationship

between biovolume/chlorophyll *a* in a deep oligotrophic lake, Spain 91

Quantitative filter pad technique
effects of path length amplification and variable sample loading on particulate spectral absorption 639

Red Sea
photosynthetic rates, surface waters, measurement by radiocarbon method/non-isotopic dilution method, comparison 713
Red tides
effects of diffusion and upwelling on formation, Mikawa Bay, Japan 363
Reproduction
Calanus finmarchicus, role of turbulence, Norwegian Sea, northeast Atlantic Ocean 399
Calanus helgolandicus, non-phytoplankton diets, comparison with a dinoflagellate diet 2171
Daphnia magna, maternal size, relationship with size of epiphippial hatchlings 279
Respiration
plankton in hydrothermal systems, Milos, Aegean Sea 887
Rimov Reservoir
community structure in a canyon-shaped dam reservoir, Czech Republic 1829
River Trombitas
phytoplankton, diel variation and species strategies, Lago Batata, Amazon, Brazil 63
Rostherne Mere
Microcystis aeruginosa elemental composition, high-Si and low-Si subpopulations, Cheshire, UK 2137
Rotifers
effect of body size and temperature on generation time 241
zooplankton community structure in a canyon-shaped dam reservoir, Rimov Reservoir, Czech Republic 1829
Rubisco
phytoplankton carbon fixation, Kerguelen Islands, Southern Ocean 1185
Rutilus rutilus
cyclopoid copepod mating and predation, *Cyclops vicinus* 1977
predation of *Daphnia cucullata*/*Daphnia hyalina*, density fluctuations in three interconnected lakes, Great Mazurian Lakes, Poland 1539

Sagitta setosa
population structure, vertical distribution and diel migration, south-western Black Sea 669
Sardinops caeruleus
spatial distribution of small pelagic fish larvae, *Engraulis mordax*, El Niño, Gulf of California, USA 1611
Saskatchewan
Cryptomonas erosa carbon allocation, effect of UV radiation, competition with bacteria, Canada 1277
Savannah
Dolioletta gegenbauri, feeding and growth rates of gonozooids, doliolid contribution to planktonic community, Georgia, USA 1485
Saxony
Bautzen reservior, *Daphnia galeata* midsummer population decline caused by adult not juvenile mortality, Germany 151
Scrippsiella hangoei
distribution and seasonal dynamics of cyst populations, Gulf of Finland, Baltic Sea 2155
germination of nesting cysts, regulation, blooms, Baltic Sea, Finland 1311
Scyphomedusae
Aurelia aurita, biomass and size structure during spring and summer, relationship with *Mnemiopsis leidyi*, northwestern Black Sea 223
Aurelia aurita/*Cyanea* sp., prey size and vulnerability of copepods 2289
escape behaviour of *Acartia hudsonica* during interaction with *Aurelia aurita*/*Cyanea* sp. 2307
Selenium
intraspecific variation in selenium, *Gymnodinium catenatum*, Tasmanian, Japanese and Spanish strains 421
Sep Reservoir
newly flooded, phytoplankton, effect of physico-chemical environmental factors on primary production, Puy-de-Dôme, France 1355
Seto Inland Sea
nitrogen content of *Noctiluca scintillans*, Japan 1203
Šebenik
Lake Rogoznica, *Acartia italica*, population size/vertical distribution, Croatia, Adriatic Sea 1441
Sexual reproduction
Daphnia magna, maternal size, relationship with size of epiphippial hatchlings 279
Shrimp
Philocheras fasciatus, larval development in the laboratory, comparison with plankton larvae 1909
Siberia
Laptev Sea, composition and distribution of pelagic and sympagic algal assemblages, phytoplankton, autumnal freeze up 843
Sicily
new species of *Stephos* T. Scott, 1892 from coastal waters, Italy 15
Stephos marsalensis, new species of calanoid copepod, Italy 2007

Silicon
Microcystis aeruginosa elemental composition, high-Si and low-Si subpopulations, Rostherne Mere, Cheshire, UK 2137
physiology model, growth of diatoms, nitrogen physiology model 447
Silver carp
long-term changes of copepoda community, Lake Donghu, China 1757
Singapore
tropical waters, phytoplankton structure, spatial and temporal distribution of chlorophyll *a*/nutrients 1465
Skeletonema costatum
transparent exopolymer particles, relationship with particle stickiness, diatom bloom decline, Baltic Sea 485
Sole
vertical migration of fish larvae in the English Channel, Eulerian and Lagrangian observations, North Sea 1813
Solea solea
vertical migration of fish larvae in the English Channel, Eulerian and Lagrangian observations, North Sea 1813
South Georgia
plankton distributions, measurement with optical plankton counter, comparison with Longhurst-Hardy Plankton Recorder, Southern Ocean, Antarctic 619
South Island
shallow lakes, trophic structure, nutrient levels/fish densities, New Zealand 951
South Orkney Island
Weddell–Scotia confluence, use of pigments to indicate phytoplankton composition biomass and physiological conditions 1989
Southern Ocean
Kerguelen Islands, phytoplankton carbon fixation, β-carboxylase/Rubisco activities 1185
South Georgia, plankton distributions, measurement with optical plankton counter, comparison with Longhurst-Hardy Plankton Recorder, Antarctic 619
Spain
Cuenca, Lake la Cruz, diel vertical movements of zooplankton 1683
gravel pit lakes, ecological goal functions and lake plankton 729
Las Tablas de Daimiel National Park, plankton biomass in a semi-arid freshwater wetland, effect of water inflow 2075
Pyrenees, Lake Redó, phytoplankton, relationship between biovolume/chlorophyll *a* in a deep oligotrophic lake 91
Urdaibai estuary, longitudinal distribution of phytoplankton blooms in a microbial estuary 969
Spring bloom
Asterionella formosa, changes in elemental composition 169
Stephos marsalensis
new species of calanoid copepod, Sicily, Italy 2007
***Stephos* T. Scott, 1892**
new species from coastal waters of Sicily, Italy, copepods 15
Strait of Gibraltar
microplankton abundance/structure/chlorophyll *a*, hydrodynamic features, strait of Gibraltar, Atlantic–Mediterranean interface 603
Sweden
Gullmar Fjord, UV-B radiation impact on bacterial activity and abundance in coastal waters 1501
Lake Erken, cyanobacteria, response to iron, enclosure experiments, *Gloeotrichia echinulata*, Sweden 1113
Synechococcus
microzooplankton herbivory and bacterivory during spring, summer and winter, Logy Bay, Newfoundland coastal waters 253
Synechococcus/bacterioplankton/phytoplankton, Logy Bay, Newfoundland coastal waters 253

Taynaya Bay
Vestfold Hills Oasis, Antarctica, phytoplankton species succession, effect of permanent sea ice cover and different nutrient regimes 287
Tisbe graciloides
abundance, diversity and survival of tropical ballast water organisms, Indian Ocean, North Sea 923
Tokyo Bay
size and species-specific primary productivity, community structure of phytoplankton, seasonal variation, Japan 1221
Transition Domain
comparison of east and west chlorophyll *a* standing stock, North Pacific 1
Transparent exopolymer particles
relationship with particle stickiness, diatom bloom decline, Baltic Sea 485

UK
Cheshire, Rostherne Mere, *Microcystis aeruginosa* elemental composition, high-Si and low-Si subpopulations 2137
Urdaibai estuary
longitudinal distribution of phytoplankton blooms in a microbial estuary, Spain 969
USA
California, Monterey Bay, seasonal abundance and vertical distribution, El Niño, calycophoron siphonophores, USA 1139
California Current, Ensenada Front,

distribution of phytoplankton, *Emiliania huxleyi*, Central Pacific flora 813
Florida, Lake Okeechobee, carbon transfer to zooplankton, algae/bacteria 1801
Georgia, feeding and growth rates of gonozooids, doliolid contribution to planktonic community, Savannah, *Dolioletta gegenbauri* 1485
Gulf of California, spatial distribution of small pelagic fish larvae, *Sardinops caeruleus*/*Engraulis mordax*, El Niño 1611
Gulf of Maine, Wilkinson Basin, *Protoperidineum depressum*/*Meridia lucens*, 3D spatial point patterns, spatial plankton analysis technique 409
Kansas, *Daphnia lumholtzi*, dispersal mechanisms and range expansion, reservoirs 2205
Virginia, York River estuary, phytoplankton, mechanisms controlling structure dynamics, temporal and spatial variations 1945
Virginia, Chesapeake Bay/Elizabeth River, zooplankton, estuarine relationships between trophic gradients and community structure 121
Virginia, Chesapeake Bay, *Gyrodinium galatheanum*, spatial and temporal patterns of distribution and mixotrophy 2105
Wilkinson Basin, bioluminescent plankton, *Protoperidineum depressum*/*Meridia lucens*, 3D spatial point patterns, spatial plankton analysis technique, Gulf of Maine, USA 409

Utermöhl method
estimating algal numbers, *Gymnodinium breve*/*Gymnodinium mikimotoi* 2255

UV radiation
impact on bacterial activity and abundance in coastal waters, Gullmar Fjord, Sweden 1501
UV radiation, effect on *Cryptomonas erosa* carbon allocation, competition with bacteria, Saskatchewan, Canada 1277
UV-B radiation effect on antioxidant enzyme activities, *Daphnia magna* survival 1167
vertical distribution and mortality, calanoid copepods/Pacific herring larvae 2325

Vancouver Island
British Columbia, Canada euphausiids, consumption by fish, Pacific hake/Pacific herring 1649

Varano lagoon
picophytoplankton, contribution to community structure in brackish environment, Mediterranean 381

Variegated mecocosms
alternatives to planktonreisels, *Mastigias* sp./*Aurelia* sp., marine lakes, Palau, Micronesia 1673

Vertical distribution
Acartia italica, population size, Lake Rogoznica, Šebenik, Croatia, Adriatic Sea 1441
calanoid copepods/Pacific herring larvae, effect of ultraviolet radiation 2325
chlorophyll *a*, seasonal variability, Adriatic Sea 1735
copepods, spatially variable food source, foraging strategy model 999
Pleuromamma scutullata/*Heterorhabdus tanneri*, life cycle and body allometry, Oyashio region, western North Pacific 29

Vertical migration
Ceratium hirundinella, growth in a subtropical reservoir, Chaffey reservoir, New South Wales, Australia 1025

Vestfold Hills Oasis
Omega Bay/Taynaya Bay, phytoplankton species succession, effect of permanent sea ice cover and different nutrient regimes, Antarctica 287

Virginia
Chesapeake Bay/Elizabeth River, zooplankton, estuarine relationships between trophic gradients and community structure, USA 121
Chesapeake Bay, *Gyrodinium galatheanum*, spatial and temporal patterns of distribution and mixotrophy 2105
York River estuary, phytoplankton, mechanisms controlling structure dynamics, temporal and spatial variations, USA 1945

Vitamin B
requirement of *Phaeocystis globosa* 1529

Wadden Sea
planktonic primary production, photosynthesis versus light intensity, Germany 1253

Weddell–Scotia confluence
South Orkney Island, use of pigments to indicate phytoplankton composition biomass and physiological conditions 1989

Western Australia
lake Yangebup, *Microcystis aeruginosa*, buoyancy regulation, water bloom formation, model 1127

Wilkinson Basin
bioluminescent plankton, *Protoperidineum depressum*/*Meridia lucens*, 3D spatial point patterns, spatial plankton analysis technique, Gulf of Maine, USA 409

WP2
performance of plankton nets in the Barents Sea, zooplankton, comparison with MOCNESS 1901

Xanthophyll
grazing experiments, gut pigment analysis, *Eudiaptomus gracilis*/*Daphnia galeata* 305

Yellow Sea
Acartia hongi, new species, Korean coastal waters 321
Environmental factors and chlorophyll *a* concentration, Yellow Sea 939
Euphausia pacifica, population structure and spatial distribution, environmental factors and chlorophyll *a* concentration, Yellow Sea 939
York River estuary
phytoplankton, mechanisms controlling structure dynamics, temporal and spatial variations, Virginia, USA 1945

Zooplankton
abundance, optical plankton counter, comparison with conventional measures, model 473
abundance/biovolume in water with high detritus, measurement with optical plankton counter 137
abundance, diversity and survival of tropical ballast water organisms, Indian Ocean, North Sea 923
carbon transfer from bacteria/algae, Lake Okeechobee, Florida, USA 1801
community structure in a canyon-shaped dam reservoir, Rimov Reservoir, Czech Republic 1829
dynamics of major species of mesozooplankton, Baltic Sea 2015
diel vertical movements in Lake la Cruz, Cuenca, Spain 1683
effect of ultraviolet radiation on vertical distribution and mortality, calanoid copepods, Pacific herring larvae 2325
egg production and emergence, effect of water regime/fish predation, experimental billabongs 433
estuarine relationships between trophic gradients and community structure, Chesapeake Bay/USA, Elizabeth River, Virginia, USA 121
Eudiaptomus gracilis/*Daphnia galeata*, grazing experiments, gut pigment analysis, fate of chlorophyll *a*/xanthophyll 305
grazing impact of mesozooplankton on algae standing stock/primary production, Gironde estuary, France 531
grazing impact of microzooplankton on algae standing stock/primary production, Gironde estuary, France 531
grazing on phytoplankton/bacteria in a hypertrophic river system, Nakdong river, Korea 1559
hydroclimatic factors and seasonal variation, Gulf of Tigullio, Ligurian Sea, Mediterranean Sea 2225
impact of metazooplankton on microbial food web, shallow hypertrophic lake, Lake Søbygård, Denmark 1047
mesozooplankton biomass, ichthyoplankton abundance/taxonomic composition of fish larvae, perturbation of Canary Current, Canary Islands 1377
micro- and macrozooplankton dynamics in a coastal upwelling system, model 1619
mortality, plankton population models, biogeochemical cycles 1085
performance of plankton nets in the Barents Sea, WP2/MOCNESS, comparison 1901
rotifers/copepods/cladocera.effect of body size and temperature on generation time 241
secondary production of *Daphnia magna*, waste stabilization pond, Luxembourg 2263
